Summary

Data-focused professional with a strong background in business operations and commerce. I turn raw data into actionable insights by building complete KPI dashboards and analytical reports.

Highly skilled in SQL (MS SQL Server), Power BI, and Advanced Excel (Power Query, PivotTables) to solve problems, streamline processes, and improve operational efficiency.

Experience

Back Office Advisor | FLINK Business Solutions

10/2024 - Present

- **Identified** and proposed data-driven process improvements, contributing to enhanced workflow efficiency.
- **Ensures %99** accuracy and compliance for high-volume document processing and information validation, adhering to strict quality standards.
- **Analyzes** and maintains key data sheets for workload reporting, tracking performance metrics to identify operational trends.
- **Manages** and validates high volumes of data across internal systems (including Salesforce) to ensure data integrity.

Customer Service Representative | e&UAE (Etisalat Global Services)

03/2024 - 10/2024

- **Analyzed** customer interaction trends to provide actionable feedback to management, contributing to service improvements
- **Handled +30** customer calls daily, resolving a high volume of complex complaints and technical cases by investigating root causes.

Education

Bachelor's Degree in Commerce | Cairo University, Egypt

09/2018 - 06/2022

Major: Finance & Accounting

Technical Skills

- **Data Analysis & Visualization** :Advanced Excel (PivotTables, Power Query, VLOOKUP/XLOOKUP), Power BI (Dashboard Creation, Data Visualization, Data Modeling, DAX)
- **Databases** :SQL (MS SQL Server)
- **CRM & Tools** :Salesforce, Microsoft Office Suite (Word, PowerPoint)

Technical Projects

- **Supply Chain Root-Cause Analysis (SQL | Power BI)**

Wrote queries to join and analyze 3+ years of data from 3 tables (orders, details, suppliers).

Performed root-cause analysis that disproved the initial 'Late Orders' theory and identified a hidden 4.98% systemic loss rate.

Developed 9+ KPIs (e.g., Total_Loss_Rate, Supplier-Specific_Loss_Rate) and built an interactive Power BI dashboard to present the findings.

- **HR Analytics Dashboard (Power BI | Power Query)**

Used **Power Query** to clean and model data and Built an interactive Power BI dashboard to analyze employee data (headcount, attrition, performance) and visualize key HR metrics.

- **Interactive Sales Dashboard (Excel | RFM Analysis)**

Cleaned and analyzed sales data in Excel and **Power Query** and Performed **RFM analysis** to build a dynamic Excel dashboard to segment customers and provide recommendations to improve retention.
