

Saleh Hossam Sayed | Data Analyst

Al Maadi, Cairo, Egypt | 01034207458 | salehhossam611@gmail.com [LinkedIn](#) | [Portfolio](#) | [GitHub](#)

Professional Summary

Data Analyst with Finance & Accounting Background. Specialized in transforming complex operational data into actionable business insights. Proficient in **SQL, Power BI, and Advanced Excel**. Proven ability to identify revenue recovery opportunities and optimize workflows through data-driven strategies. Leveraging background in back-office operations to ensure **99% data integrity** and streamline reporting processes.

Technical Skills

- **SQL & Database Analysis:** SQL (Advanced querying, CTEs, Window Functions, Complex Joins, Subqueries, Aggregations)
- **Business Intelligence:** Power BI (DAX, Data Modeling, Star Schema, Dashboard Development, Interactive Reports)
- **Excel & Transformation:** Advanced Excel, Power Query, Power Pivot, PivotTables, XLOOKUP
- **Analytics Skills:** Root cause analysis, KPI tracking, revenue analytics, RFM segmentation
- **Tools:** Salesforce CRM, Microsoft Office Suite (Word, PowerPoint)

Key Projects | *Selected high-impact case studies demonstrating business value*

Adventure Works Business Intelligence | *Power BI, Data Modeling*

- **Context:** Retail dataset requiring profitability and inventory turnover analysis.
- **Action:** Built an end-to-end BI solution (ETL → Star Schema → DAX Measures) to track revenue trends across product lines.
- **Result:** Uncovered **\$202K** in revenue recovery opportunities by pinpointing underperforming regions and high-churn products.

Supply Chain Root Cause Analysis | *SQL, Power BI*

- **Context:** Investigated significant inventory discrepancies reported in logistics data.
- **Action:** Analyzed 3+ years of logistics data using SQL Window Functions and CTEs to track inventory flow patterns and identify loss points.
- **Result:** Challenged initial assumptions by identifying **32,000+ units** in lost inventory (vs. delivery delays), shifting operations focus to warehouse auditing.

Restaurant Loyalty Program Optimization | *SQL, Customer Analytics*

- **Context:** Restaurant needed data-driven insights to optimize membership rewards program.
- **Action:** Analyzed customer purchase patterns using advanced SQL (CTEs, Window Functions, Complex Joins) to calculate customer lifetime value and identify loyalty program gaps.
- **Result:** Delivered SQL-based solution enabling menu optimization and targeted promotions based on spending behavior segmentation.

Strategic Sales & RFM Analysis Dashboard | Excel, Power Query

- **Context:** Customer transaction data needed segmentation to improve retention marketing.
- **Action:** Built a dynamic RFM model using Power Query to clean and segment raw sales data.
- **Result:** Segmented customers into "**Champions**" vs "**At Risk**," saving est.\$**137K**/month in churn.

Professional Experience

Back Office Advisor | *FLINK Business Solutions* Oct 2024 – Present

- **Data Quality Assurance:** Validated and audited high-volume datasets across Salesforce and internal systems, ensuring **99% data accuracy** and compliance with strict quality standards.
- **Operational Data Management:** Manage and validate high-volume customer records using **Salesforce** and Excel, ensuring strict adherence to company data standards.
- **Process Efficiency:** Streamlined document verification workflows by organizing data inputs, reducing manual processing time.

Customer Service Representative | *e& UAE (Etisalat Global Services)* Mar 2024 – Oct 2024

- **Problem Solving:** Resolved complex technical complaints for **30+ customers daily**, investigating root causes to ensure first-call resolution.
- **Negotiation:** Utilized effective communication skills to de-escalate sensitive situations, ensuring high customer satisfaction and retention rates.

Education

Bachelor’s degree in commerce | **Cairo University, Egypt** 2018-2022

- Major: **Finance & Accounting** | **GPA: 3.4**

CERTIFICATIONS & TRAINING

Digital Egypt Builders Initiative (DEBI) | **Business Analytics** Oct 2025 – Present

- Ongoing intensive program covering: SQL, Power BI, Data Warehousing, Python (in progress), Tableau (in progress), and Advanced Analytic.

Corporate Finance Institute (CFI)

- Power Pivot Fundamentals (2026) | Power Query Fundamentals (2026) | Data Analysis in Excel (2025)

Coursera

- Introduction to Databases (Meta) | Statistical Distributions (Rice University) (2025)

Professional Diploma in Data Analytics | **Alaa Essam Academy** May 2025 – Nov 2025

- Intensive **160-hour** program covering SQL Server, Power BI, Excel
- Hands-on training in data analysis, visualization, and end-to-end analytics workflows

Student Activities & Volunteer Participation

HR Member & Workshop Participant | Our Vision (Student Activity) Sep 2019 – May 2020

Operations Member | Tedx Maadi (Non-profit Organization) Aug 2019 – Mar 2020

Languages

- **Arabic (Native)**
- **English (Fluent)**
